

# Lab N<sub>2</sub> pressure meter **LAB.N2**

The newest ACM technology is the **patented** lab and at-line meter LAB.N2.

**LAB.N2** determines non-destructively and precisely the container pressure of bottled still beverages with dosed N<sub>2</sub> in PET and glass, like juices, waters and still wines. Longterm tests on the same sample are now possible. Also measurements on PET containers closed with sports caps are enabled.

Disposal of sample - common with invasive manometer methods - is economized.

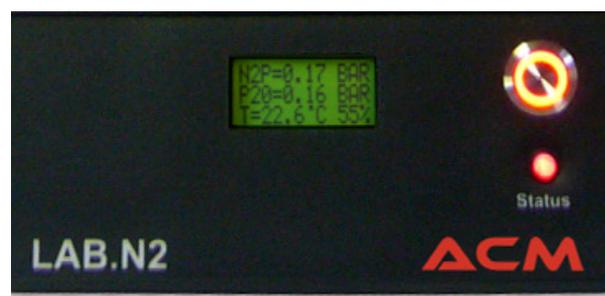

*New*

*Sample loss-free and precise pressure determination now also for bottlers of non-sparkling beverages!*

### Advantages

- No moving parts, maintenance-free
- Extremely fast, easy handling
- Loss-free sample treatment!

### Technical specifications

**Measuring range**  
**Accuracy**  
**Repeatability**  
**Measuring result**  
**Data interface**

0-3,5 bar  
 +/- 0,05 bar  
 +/- 0,02 bar  
 within 1 minute  
 to ACM QUATROL
